

## Parent ADHD History Form

### Name of Person Completing Form \*

First Name      Last Name

### Name of Person Being Rated \*

First Name      Last Name

### Relationship to person being rated \*

You have been asked to complete this form for your child regarding whether any ADHD symptoms were present in (a) childhood & (b) currently. As ADHD is a neurodevelopmental disorder to be diagnosed the symptoms have to be present prior to the age of 12 years. Given the symptoms can often be worse and more obvious in childhood, any information about your child's early development would be extremely valuable as part of our assessment.

## **Issues with Attention- Currently?**

**Minimal or not observed  
CURRENTLY**

**Often and obvious  
CURRENTLY**

**Issues with paying attention to details and making careless mistakes?**

**Issues sustaining attention over long periods?**

**Doesn't seem to listen when spoken to directly (eg. mind elsewhere)?**

**Doesn't follow through on instructions and fails to complete tasks?**

**Issues organising tasks and activities?**

**Avoids or dislikes tasks that require sustained mental effort?**

**Loses belongings?**

**Distracted by things in the environment or unrelated thoughts?**

**Forgetful in daily activities?**

## **Issues with Hyperactivity/Impulsivity Prior to Age 12?**

**Minimal or not observed  
PRIOR TO AGE 12**

**Often and obvious PRIOR  
TO AGE 12**

**Fidgety?**

**Leaves seat in situation when expected to  
remain seated?**

**Runs around or climbs in situations where it  
is inappropriate?**

**Issues engaging in leisure activities  
quietly?**

**Is often 'on the go' and has issues being still  
and quiet?**

**Talks excessively?**

**Blurts out answers before the question is  
completed?**

**Difficulties waiting their turn?**

**Interrupts or intrudes on others?**

**Issues with Hyperactivity/Impulsivity Currently**

Minimal or not observed  
**CURRENTLY**

Often and obvious  
**CURRENTLY**

Fidgety?

Leaves seat in situation when expected to remain seated?

Runs around or climbs in situations where it is inappropriate?

Issues engaging in leisure activities quietly?

Is often 'on the go' and has issues being still and quiet?
